

BudBusterPro® 1-1-20 Metals Content .

We are proud of the quality of our formulations and, as required by the State of California licensing procedures, provide this information for all interested parties. Keep in mind that this is the content of the **concentrate material**. Dilution ratios never exceed 3ml/8oz water. (Or a .0125% solution)

Arsenic (As) 0.012 ppm

Lead (Pb) 0.133 ppm

Cadmium (Cd) 0.07 ppm

Mercury (Hg) 0.003 ppm

Cobalt (Co) BDL*

Molybdenum (Mo) 0.46 ppm

Copper (Cu) BDL

Nickel (Ni) 0.003 ppm

Selenium (Se) 0.27 ppm

We continue to review available reagent quality and will **always** strive to purchase the best components available, regardless of cost. In the case that our component selection or periodic formulation testing indicates a change in metals content, we will update this data as soon as possible.
